

Poppy Art.

What you will need:

- White Card.
- Red Card.
- Black Card.
- Green Pencil.
- Glue Stick.
- Scissors.

(If you don't have any card then you can use paper or tissue paper).

How to make:

- 1.** Draw the shape of a petal on the red card and then use your scissors to cut out the petal. Repeat this step until you have around six petals. (Remember to have parental supervision when using the scissors).
- 2.** Taking one petal at a time, using the glue stick, glue the petal onto the white card.
- 3.** Repeat step two with the other five petals making sure that they are next to each other in order to create the flower pattern.
- 4.** Next take the black card and cut out a small circle. Glue this circle onto the white card in the centre of all the petals.
- 5.** Now, with your green pencil draw a long line that starts from the poppy to the bottom of the white card.
- 6.** Repeat steps one to five until you have two more poppies.
