

Cotton Ball Snowman Cards

What you need:

- Cotton wool balls
- Glue
- Card
- Scissors (make sure to ask a grownup for help with these!)
- Pens/pencils

Method:

- First you will need to fold your piece of card in half.
- Then draw your snowman outline onto the card. Make sure to not cut the entire folded side, otherwise your card will not be able to stand up!
- Then cut around your outline.
- Then, take your balls of cotton wool and glue them all over the front of the card to create your snowman. You can tear up the cotton balls to make smaller pieces if needed.
- Once the snow is done, you can begin decorating! You can cut out decorations such as a hat or nose out of coloured paper or card and stick them wherever you want to. Have a look at what we have done for some ideas.
- Top Tip: if you don't have coloured card, colour in some plain paper with whatever colour you need then cut out your shapes
- Once you have finished, write a message in the card and you can give it to whoever you wish.
- If the cotton wool is too heavy and the card is not staying upright, try cutting a strip of the back bit of the card to help it lean back and balance.
