

How do you make a snowflake holiday card?

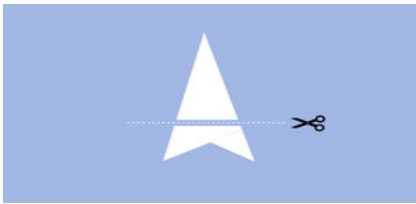

What you need:

- Coloured paper
- Scissors (make sure to ask an adult for guidance when you use these)

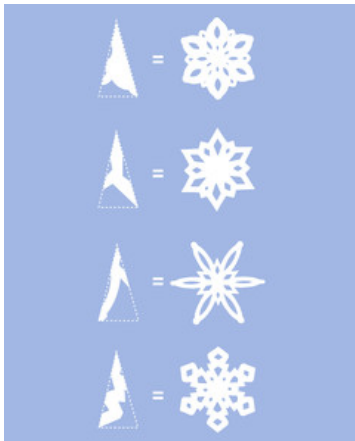

What to do:

1. Start with a square piece of paper
2. Fold paper in half and make it a triangle
3. Fold it in half so that the pointed corners meet.
4. Fold it in thirds, overlapping the left hand pointed corner over the triangle
5. Overlap the right hand pointed corner over the triangle.
6. Trim the pointed ends so the paper triangle looks as shown.

7. Cut your folded paper with variations of cutouts. Tip: The ones with straight lines are easier to make than the ones with curvy lines

8. Unfold it gently. Don't worry if your snowflake isn't exact: No two snowflakes are ever alike.
9. Now that your snowflake card is done, you can glue it onto the folded coloured card, wherever you like.
