

MAKE YOUR OWN BOOKMARK

What you need

- A square piece of paper/card, any colour you wish.
- Glue (optional)
- Scissors (optional)
- Pens/pencils (optional)

Method

1. Fold your piece of paper in half diagonally
2. Lay it down with the folded side at the top, and take the bottom of the top half, and fold the point upwards so that it touches the fold.
3. Then take one of the end corners and fold it down to the bottom corner
4. Repeat with the other side
5. Then, take the points that were just folded down, and tuck these underneath the fold in the middle of the paper
6. You now have a bookmark!
7. If you want to decorate it, you can make it into a monster with teeth, or an animal, or just decorate it. We decided to make a bunny by sticking some ears on the back.
